Cleaning & Maintenance

Clean all liquid spills immediately. Simply dust mop or vacuum with a soft brush or wood-floor accessory to keep your floor clean from dust, dirt, or grit. A damp cloth or mop can be used without damage to the laminate panels, but do not use excessive water. Never spray water directly on to floor. Dry the floor thoroughly with a clean, soft cloth. Do not use soap based detergent, abrasive cleaner or combined "clean and shine" product on your laminate floor. Do not use steel wool or other scouring pads that may scratch laminate panels. Do not wax or polish your laminate flooring. apply felt pads to furniture legs to avoid scratches. Save a few extra boards for the future to replace a damaged panel.
